

# Second Grade

The Second Grade is made of four lovely girls this year. They might be few in number, but they have a lot of heart. Three of the girls are Little AJA Cheerleaders and they help keep the school spirit by cheering at football games.

Second graders don't feel slighted by being in with the third grade be-

cause they have a good teacher who is in control of the situation perfectly.

They also become a little familiar with third grade material which will help them next year.

Mrs. Wade said, "It's more fun than a barrell of monkeys teaching four little girls. It would be nice to have some boys."

Rachel Stewart is busy doing her school work, so she has no time to smile for the photographer. Rachel is a student who likes to make sure her work is done before she spends time playing or goofing off.
