

To April,

A very unusual person. One who has the Hope, the Dream, and the ability to make a difference in the years to come. When you find a task that is too big for you to handle, take a smaller task until you can reach your full potential. With God's help you can be all that you want to be. PaPa would be so thankful for you.

You will always be a very special granddaughter to me. My prayer is that you will go with God and He will go with you.

Love,
NaNa
