Grade **5**

The fifth grade class is a very energetic class because they have a great and crazy teacher! Ms. Grice says that she wanted to kiss the pig at the contest. Faith Ponds won the Lieutenant Governor's Essay Award. The fifth grade class likes making a mess and are interested in careers as doctors, football players, working for the government ... or jobs that just bring in the money. Faren wants to find a cure for AIDS and she won the Grammar Miss AJA title.

The girls like to talk on the phone and the boys like to hunt.

Most of the fifth grade class enjoys reading but some have developed a lazy streak. They are definitely ready to take over the world!

These hardworking fifth graders make Ms. Grice proud to be their teacher by doing their work.

Faren Myers seems to enjoy working her math problems while Jacob Clayton seems to be working hard, too.
