Trey Welch

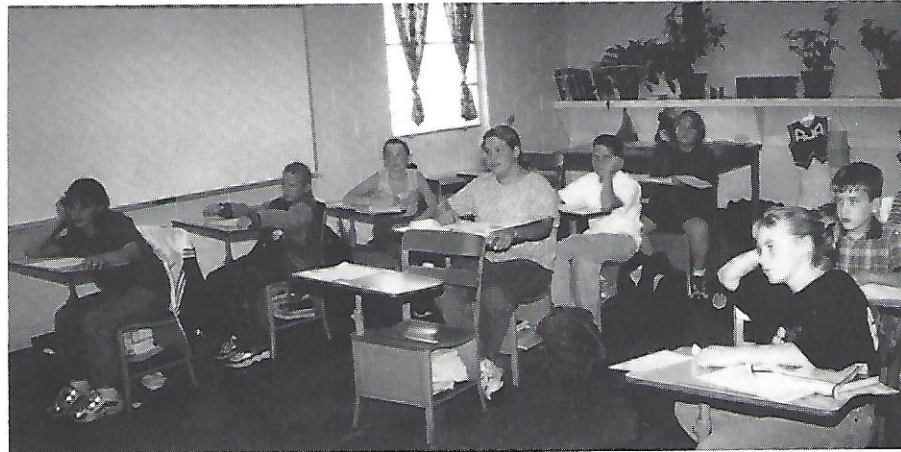

Grade

Shelby Crolley offers a beautiful smile to go along with her bright personality.

The sixth graders listen closely to Mr. Mixson's instructions during class time.

The sixth grade class, which has eleven students, is very energetic.

When asked about entering high school, Trey and Shelby said they are scared! During their free time at school they like to talk. Trey likes to talk to the girls!

Away from school, the boys like to hunt and watch TV while some of the girls like to talk on the phone. Amanda says she would rather be playing with her animals on the farm.

They are happy to be a part of the sports program at AJA. Their favorite class is social studies taught by Mr. D. They are glad they only have to go to school four days a week.
