Grade **9**

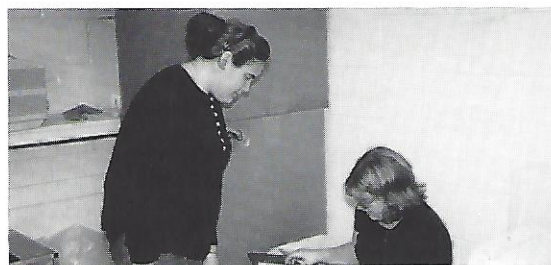

The Freshman class at AJA is a group of students who have a lot of interesting facts to share. For instance, they all are really in high school now. Lori likes being looked up to while Clayton enjoys sleeping. Brett added that he is glad to be able to play varsity sports and Natalie enjoys the extra privileges. Of course, there are some facts that Freshmen aren't crazy about. They aren't crazy about homework and Gordon thinks the work is harder. Naturally, the fact of graduating soon and being on their own appeals to the Freshmen. These students are ready to take on the world ... never mind the fact that they don't have driver's licenses yet!

Clint Crosby follows directions from the book to complete his keyboard assignment.

Ninth graders enjoy keyboarding class with Mr. Bert in charge.
