

7th Grade

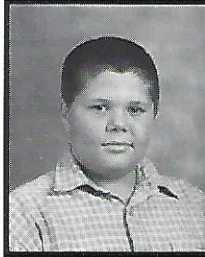

With the addition of Eric Proveaux, there are fourteen students in this class full of energetic minds. Lauren wants to be in the medical field while Kimberly wants to be a veterinarian. They enjoy their days off by playing basketball, shopping, riding four wheelers and horses. Their favorite period of the day is Life Science. As with most classes, there is a class clown and Jacob Clayton wins that spot in this class. When asked what their favorite thing about going to school at Andrew Jackson Academy was they replied "No school on Fridays and no uniforms." This class is looking forward to moving up to the eighth grade next year.
