

Travis enjoys that Mountain Dew at lunch.

Mrs. Way seems to be having a fun and interesting year with these four students. Their favorite part of the day is recess, of course.

Laura's favorite subject is social studies, Travis and Nelson likes science, and Aaron prefers math.

Everyone agrees that Travis has the most energy and Laura is the quietest.

After school, Aaron watches TV, Laura and Nelson play Playstation, and Travis rides his four wheeler. Nelson will spend his summer helping his dad on the farm while Travis, Laura, and Aaron will be watching TV.

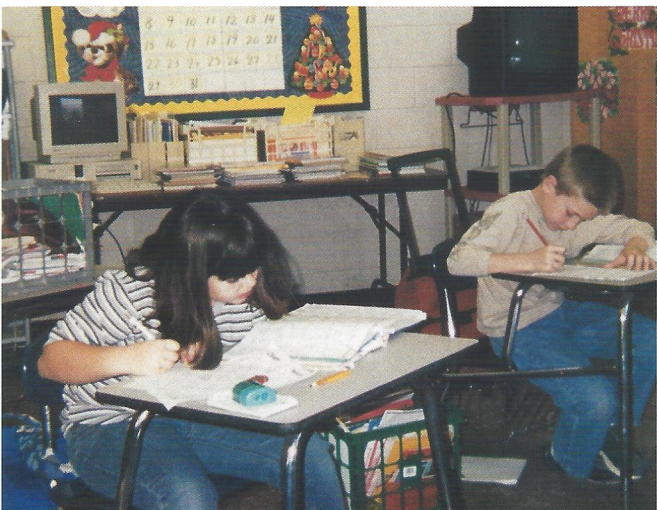

When these students grow up, Laura wants to be a doctor, Nelson wants to be a farmer, and Travis and Aaron want to be well-drillers.

The Three Stooges in action! What a trio Laura, Nelson and Travis make.

Nelson has such a serious look. Maybe he's just tired.

Laura and Travis are busy as bees doing classwork.

Mrs. Way takes a moment to meditate.
