During my four years on varsity I learned that even if you were small and did not have but 5 people on the team, you still could achieve any of your goals. We never made it to the state championship game but the good thing is we never gave up. Mr. Donald would at times get angry at us but that would just make us want to prove to him we could listen and do what he says. I always played to the fullest and since I am a senior I have learned to appreciate my coaches as well as my teammates.

Kristen

This was my first year in basketball. I have learned so much about teamwork & even though I ran like a pony, I still had a great time!

I have been playing varsity for the past 4 years and let me tell you, it is a whole different Ballgame. This was the first year our team has had more than 5 players. We had to go from playing an entire game and wearing ourselves out to having a Really great team to depend on. Sometimes we had our ups and our downs but when it came down to it we came together. Even though we did not win all our games, we still lost and won as a team. Memories from this year will stay with me forever. So thanks to all my teammates and my coaches.
