Heather,

Not sure where time went, but you grew up way to fast. We are proud of you and the young lady you have become. Remember to always keep God first in your life and remember family is always here for you. We love you.

Meme & Peggy

We remember the day you were born, your first steps, first day of K-4 and high school. We are blessed to have been able to share these times with you. We love you very much.
