ON GROWTH

It has been said, "Some folks cannot see the wood for the trees, while others have perspective."

While molding, influencing, and touching the lives of many young people, we try to keep a true perspective by a broad mental outlook toward the future enriched by experiences from the past nine

years. In this annual we have tried to capture pictures of this perspective. School experiences must be related to real life situations and viewed in relation to each other. Here we see through the eyes of the camera what we often see in perspective with the eyes of our mind.

FOREWORD

As it challenges its students to live up to high ideals and to look toward the future, Bells High offers a well balanced program. This includes perspectives on growth, living and learning together, acquiring skills and techniques,

and preparing for what lies ahead. These are combined to challenge and to mold students' potentialities in order that they may better serve their community and nation.

ALMA MATER

*Where cross the two highroads
And many pass by
Our fair Alma Mater stands
Proud 'gainst the sky
And all who seek wisdom
In her halls shall find
A heart that is noble
And gentle, and kind.*

*We hail thee Bells High School
Beloved Alma Mater
Our steps shall not falter
Thy light never fail
We drink at the fountain
Of clear sparkling water
We pledge to thee our loyalty,
Bells High All Hail!*

MRS. R. M. HIGHTOWER
French and Librarian

"Mrs. Thornton, please!
I'd rather do it myself!"

It is the desire of the teachers of English that each student who graduates from Bells High will be equipped to think clearly, to read intelligently, to communicate effectively in speech and writing, and to listen critically.

First and Second year French, part of the college preparatory curriculum, is offered to all students grades nine through twelve at Bells. Much interest and enthusiasm is shown in these classes.

The Seventh and Eighth Grades enjoying a reading class.

French class sings French National Anthem.

A study of "Oscar" (the human body) is essential in the Junior High School.

SCIENCE

In this atomic age, our school attempts to give each student a proper foundation in general science, biology, chemistry, and physics, in order to prepare him for future challenges.

Many mysteries are revealed to Bells students in

the classroom and lab, where they also find adventure and excitement.

It is through this department that some students may become interested in a science career.

Dissecting a Mud-Puppy — an enjoyable part of Biology for Rita and Jane.

Mr. Lytchfield demonstrates the path of a projectile to physics class.

MATH

Bells offers a well-rounded mathematics program. Among the courses offered are General Math, Algebra, Geometry, and Trigonometry. These render valuable assistance to those entering college and the business world.

The next question, "Do you understand this problem?"

"America was discovered—I believe by———Oh, you know!"

"Ruth, that is Charleston County, not Colleton County," says Mr. Varn.

The Social Studies Department includes American Government, United States History, and World History. The aim of this department is for students to profit from the experiences and culture of the past. In order to fully understand his own time, a student must gain knowledge of the past. Social Studies enables students to become familiar with the government and its structure.

SOCIAL STUDIES

Pointing out the divisions of the State Legislature:

With good leadership and talented students combined, BHS students enjoyed several musical programs and functions presented by the Glee Club, Band, voice students, and piano students. The Glee Club has presented recitals, appeared at churches, PTA meetings, and other community functions.

The Band presented a fall and spring concert, participated in parades, and promoted school spirit at football games.

MRS. J. L. SUMMERS
Home Economics

Personal grooming includes the total care we give our bodies, such as: hair care, skin care, face care, dental care, hand care, all of the essentials to make a person well groomed.

HOME ECONOMICS

Girls who plan a future in Home Economics learn the fundamentals of foods and cooking, sewing, home decorations, home improvements, home nursing, and first-aid in their home economics classes. Along with their class work, they have guided experiences performed at home. They are learning today to build better homes for tomorrow.

Following the recipe accurately, with the proper utensils and ingredients, makes cooking enjoyable.

Measuring the hem correctly is essential in a well constructed garment.

Livestock and poultry production make up a major part of the course in vocational agriculture.

AGRICULTURE

Our course in Vocational Agriculture offers extensive training in agriculture. While classroom work is basic, field trips, supervised farming programs at home and Future Farmers activities are major parts of the course.

The course is broad enough to be helpful to those students who will not farm but will follow an occupation within the field of agri-business. Much emphasis is placed on leadership and citizenship.

MR. A. L. SMOAK

Soil conservation receives attention of students.

Students learn to make useful items for their home and farm.

Exciting game of soccer being played by girls P. E. class.

PHYSICAL EDUCATION

Impossible for boys, as usual, to get the birdie over the net.

Physical Education is a constant effort to strengthen the minds and bodies of boys and girls. If benefits are to be derived from athletics, the highest standards of ethics and sportsmanship must be taught and maintained.

Our nation needs physically fit and capable young men and women if we are to succeed in preserving life, peace, and prosperity. At Bells, our physical education program is geared to meet this challenge.

Tumbling—an interesting phase of boy's P. E.

For boys who must plan for the future, Auto Mechanics is taught in our Vocational Department. Students receive actual practice and knowledge in both the classroom and the shop to better enable them to enter the trade, especially if college plans do not materialize.

FUTURE TEACHERS ASSOCIATION

The Future Teachers of America is an organization composed of students who anticipate a career in the teaching profession. Through the FTA, students are privileged to gain a keener insight into the requirements, advantages, problems, and other aspects of teaching. They assist faculty members of the school in various ways whenever possible.

Good luck always.

Thank You

We would like to thank all who have helped to make this edition of the "Crossroads" possible.

Without the hard work and guidance of Mrs. H. A. Roberts, Jr., our yearbook would not have been a success.

We would also like to express our thanks to Mr. Bone and Mr. Bush, photographers, and Mr. R. W. Norman, Keys Printing Company Representative.

To the advertisers, we appreciate your financial support.

To all annual staff members who have worked hard, thank you.

Our sincere gratitude goes to the members of the faculty and Mr. Dantzler who expressed interest in our annual. Mrs. Peters, we especially thank you for proofreading and expressing your ideas for a good annual.

Again, thank you to all who have helped make the "'64 Crossroads" a success.
