

Basketball

To everyone's satisfaction and joy Calvary had its first good Basketball team. The team's was altered in their strategy and style. This change came from first year coach Chip Register. With his ideas coming straight from college, a great deal of the teams success can be contributed to his work. This was the second year the same group of men have been playing together. Their friendship on and off the court also helped them become a well-knit squad, which is essential to victory. The Varsity team will lose two seniors but has prospects quite capable of filling the gap. Next year the Eagles will attempt to better their 7 wins — 7 losses record. This year the school held the first Calvary Invitational Tournament. Our boys were edged out in the final game to take runner-up. See ya at the GAME!
