

Foreword

This is the most difficult time of the year. The seniors must make plans that will probably affect their whole future. The thoughts enter our minds if during the phases of the last four years we have prepared ourselves for the unscreening that lies ahead.

Whatever phase of life that we turn to we will always look back on our Alma Mater with remembrances of the good times as well as the bad ones. Looking back we can see ourselves growing into manhood and we know that we are well on the road of life.

We will never forget the guidance and kindness given to us by our school. They were a great help in the molding of our character.

Our hearts will have a tinge of sorrow forever.
