In a matter of days, many students will be leaving Camden Military Academy. It will be the last time they have to pack their bags here at school. They will be leaving with only the memories they have, whether they be good or bad.

CMA might have taught its seniors the academic work that they were supposed to have learned, but how were their lives influenced? Not only were we sent here to learn, but a young mind is also influenced by everything that he is exposed to at this age.

As each and every senior leaves this academy, he can only say that he made what he did out of himself by the efforts that he expended. This was left entirely to the student. Camden Military Academy is here for the student to make whatever he wants to out of it. He can make his mistakes or he can make his breaks.

As we leave Camden Military Academy, we can see the hard road ahead. If we take each problem in life as it comes, we can prevail.
