

R.O.T.C. PROGRAM

The Reserve Officers Training Corps has a two-fold mission. First, to teach the principles of leadership, respect for constituted authority, habits of precision, orderliness, courtesy, hygiene, and correctness of posture and deportment; and second, to give the cadet instruction in basic military subjects which will be of benefit to him and the Armed Forces of his country, when he becomes a member of one of its many and varied branches.

Our program here at Camden Military Academy consists of four years of military training. In the first year we are taught the basic military subjects, hygiene and first aid, customs and courtesies of the service, and good posture and personal appearance. In the second year we are taught military subjects oriented toward the development of leaders, at the squad and platoon level. The third and fourth years are used to expand upon the subjects necessary in developing leaders at the company and battalion level.
