

R.O.T.C. PROGRAM

Here at CMA, we learn leadership, the art of getting others to willingly get the job done. It doesn't take many weeks to learn that a good leader must have compassion for those he leads. We also realize perhaps not so quickly, that being a good leader means acquiring greater responsibilities, knowledge, and having strong moral character. We believe, that patriotism, duty, honor and integrity make the kind of citizen we hope to be.
