The Senior class of 1970 has finished its final course of education. We have learned much and will benefit in later years. We, the senior class, have very much to be proud of.

It was our year that Carlisle was beaten the worst ever (52-0) in football. We beat them in every major sport. Our senior year is the year when we had the best I.G. in-

spection in the history of the school. The gym was completed during our senior year of 1970. It was our football team that carried fifteen seniors. Several track and field records were broken by seniors also. If we could change it—we wouldn't in any way for this is OUR YEAR the year of NINETEEN SEVENTY.
