SUB-FRESHMEN

The sub-freshmen, believe it or not, will someday be the backbone of our school. The cadet corps will always be supplied with a few sub-freshmen and they will always be expected to pull a double load when the time arises. This class will always have to obtain experience by gaining knowledge by everyday occurrences and retain it for their freshman year. Good luck to the class of '75, may you use today's knowledge to conquer tomorrow's problems.
