

COLONEL JAMES F. RISHER

For most of this year a familiar and beloved personality, Colonel James F. Risher, has been missing from our campus. Illness has necessitated his being confined to the hospital for the year.

His philosophy, his zest for life, and his stories of human nature have been heartwarming to the cadets. His many and various experiences in life especially those involving the education of young people have been well-springs of knowledge from which he draws his stories.

For all of your services to Camden Military Academy, Col. Risher, we thank you.
