

Our Academy Over The Years:

1. One of the original two story barracks.
2. The inside of an older barracks.
3. The chemistry lab, set up and in use.

This year we are dedicating the 1977 Excalibur to our academy. From the beginning of our history, as shown here, our school has stood for high ideals among men. Our school has come a long way since its humble beginning in 1958. We are a fully accredited member of the Southern Association of Colleges and Schools. Last year we again received the honor rating with distinction during our Annual Federal Inspection. We cadets of the academy are proud of our past and prospects for the future are bright. The honor, integrity, and ideals of our school, as represented by our cadets, will stand long after our Academy turns to dust.
