

# Annual Federal Inspection

Battalion Prepared for Uniform Inspection.

Cadet Sneed is inspected indoors.

Cadet Ltc Rory Barth and Cadet Major Chad Watts Brief the Inspection Team.

Inspectors from First Army ROTC Region, Fort Bragg, North Carolina, evaluated Camden Military Academy's Junior ROTC Department on March 2, 1979, inspecting cadets, barracks, administrative records, campus, and security of military facilities. Team members commented on the excellent appearance of the corps and of the CMA plant alike. AFI is an all-out effort for every member of the cadet corps and for faculty and staff too. We're proud of our 100% efforts which have consistently earned us Honor Unit with Distinction.
