The '79 season for the CMA Spartans turned out a success. With only three returning starters, the team, with fine coaching and hard work, produced a 5-2-1 record. After losing the first game and tying the second, the team sprang back with a five-game winning streak, only to have it end in the conference championship to Spartanburg Day School. In spite of this disappointment, we would like to thank the team for one of the best winning percentages the school has seen and also a second place in the conference.
