

WHERE TO NOW?

Not a day goes by that each person does not think about the future, *Where to Now?* What a question for eighteen and nineteen-year-old boys to think about. College, the armed services, the America labor force, and even marriage are just a few of the decisions that grace every high school student in America when they graduate.

These are the decisions that change a person's life, and they cannot be made in haste. This is why the *Excalibur* asks *Where to Now?* Although the question is a frightening one, every cadet who leaves this institution will be ready to make that decision, face it head on, and tackle the problem with fortitude and confidence.

As young men, the cadets of Camden Military Academy are reminded that the decision made about the future is THAT cadet's decision, and as long as he is happy with it, he will be nothing but a success. "*Where to Now?*" —You decide.
