## Progressive People

On the Camden Military Academy faculty and staff in 1998, twenty-one members hold masters degrees, and two have doctorates. Early in the second semester, cadet enrollment equaled space available. We have an unusually large eighth grade class, and we look forward to having these young men with us until they graduate from high school. The character of the cadet corps has never been higher, and the dedication of the faculty and staff has never been greater. There is genuine good will and respect among teachers, staff, and students. The quality of the people at CMA creates the unique and rewarding experience that our institution offers.

A newcomer to the faculty is CPT Blake Hawkey, mathematics and computer science instructor. CPT Hawkey is a graduate of the United States Military Academy, West Point. In addition to his teaching duties, he coaches track.
