Sports for the New Millennium

The Camden Military Academy Athletic Program enters the 2000's on a high note: winning the conference football championship this season. The count of titles now stands at eight in the last eleven years. Basketball follows closely with six titles; and baseball, wrestling, and soccer attract a large following. CMA fields competitive teams in all sports, including golf, tennis, track, and cross-country. Under the leadership of Athletic Director Eric Boland and a staff of dedicated coaches, the Academy fields exciting teams that enhance the quality of campus life and build *esprit de corps*.

Everyone else is flat footed as center Alonzo Bethea dunks the ball unchallenged. With good overall height and speed, the Spartan Basketball Team is exciting to watch this year.
