*You are my miracle. You are my heart.
 Love, pride and joy are what I feel for you each day.
 You have blessed my life in so many ways.
 You've made me strong, you've made me weak.
 You've made me laugh, you've made me cry.
 But most of all you've made me happy.
 My life was so empty before you came along.
 Suddenly my life was complete. I was a mother.*

*We have had a tough road together.
 But with your love and support, constantly
 giving me strength, we made it! And we
 made it together. Learn from our experiences.
 Continue to be proud of who you are.
 For you are the best son a mother could ask for.
 I wish you great health, great fortune, and above
 all, a lifetime of love and happiness. I am very
 proud to call you my son. God bless you son.
 I love you with all my heart,*

Mom
