

Headquarters Detachment

Harmony in Numbers

Headquarters Detachment is an undersized company, but it does everything that all the other companies do. The main difference is that cadets probably get to know each other better than in fully manned companies. HQD consists of 20 returning cadets and one new cadet. All members of the company work together harmoniously. One reason for the harmony is the presence of CPL Crazy Maggie, company mascot and Morale NCO. Maggie is a dog, but she does her job very well. "Our goals are to try to get everyone in the company involved in activities and to win Honor Company," said CPT Jacob Winger, company commander. "We really try hard to win this award." HQD has won Company of the Week several times. CPT Winger believes that if the company continues to work well together, they should end up having an excellent year.
