

# Douglas Maurice Stewart II

Maurice, your time has come to move into the next phase of your life, graduation from high school, and then college. I know you have learned a lot. Your soul has been thoroughly tested, but your wisdom has grown as a result of your testing. Good things cost most of us, unless God says otherwise. You are still very young, meaning you still have many choices to make in this life. You have God on your side, and he will do what's best for you at all times. No matter how it seems, if God is on your side, and we know he is, you will be victorious in your season.

Carry on, Soldier
