

# Jimenez

Ricky,  
Life is the universe. Never look down, just reach for the stars.

Your uncle Eddie

you have a wonderful time building your table/future.

With much love,  
Your uncle Mario

To my nephew Ricky:

Remember how to build a beautiful table: first make sure you have a plan, then make sure you have acquired all the right tools and remember to take your time and stay focused so you won't make any mistakes that can be costly or regretful. Take criticism gracefully and do not blame the tools or others for any mistakes you may make. Instead, learn from them and most importantly do not take shortcuts or accept advice from anyone who has never built a table before. I love you and hope

Ricky,

There are many things that you will learn in life, but as for me I have always found this saying to push me to be the best every day, even on the bad ones:

"Life is full of steps. Some are small and some are huge. May all the ones you decide to take lead you to eternal success and happiness."

I love you,

Aunt Monica
