Below: Doeblner shoots for the three.

The Middle School Basketball Team's main goal this season was to develop their skills each game. The highlight of this season was when the team started to work together and how it feels to win. "Cadet Locke helped out tremendously with his skilled shot and intensity on the defensive side. Cadet Patterson applied his skills at point guard and was also a key factor to the team's defense. Cadets Stephens and Barrett truly stood out at their positions underneath the basket on both offense and defense. The team as a whole honestly impressed me and showed their determination to improve their game," said Coach Greene.
