

Wesley Albert Weaver

I knew the first moment that I saw you that you would touch so many hearts and prove to the world how special you really are. I have seen that every day of your life. Each year I have watched you grow and mature into an exceptional, caring young man. You will never know how much you have touched our lives and changed them forever.

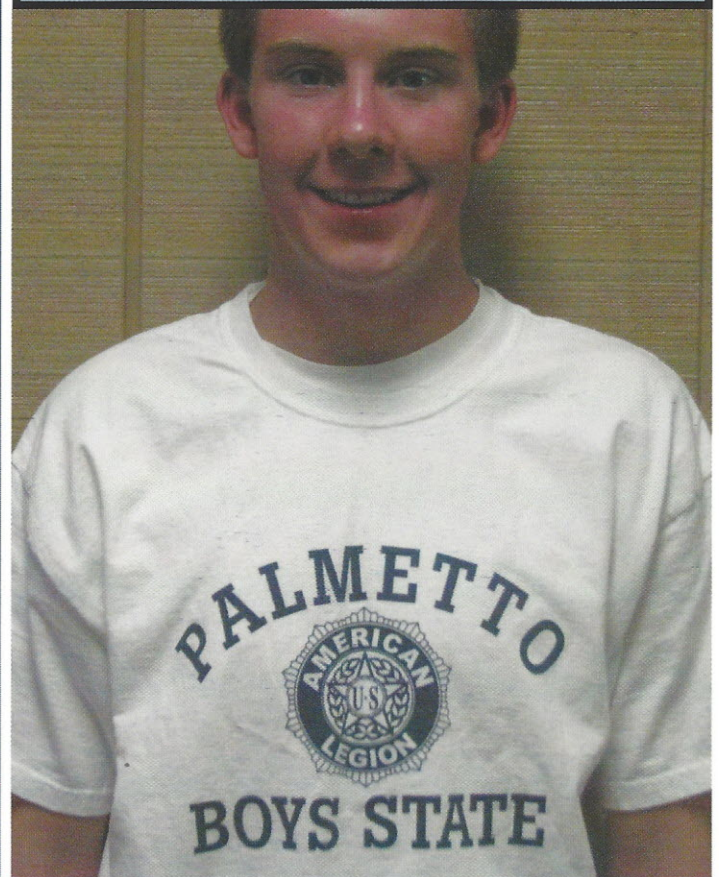

Just remember, it's not what you do on Sundays in church; it's what you do and how you live Monday through Saturday that defines who you are.

Keep God first.

*We love you!
Your entire Family*
