

The Robotics Team (left to right): Cadets Ethan Freeman, Jarod Begell-Dyer, J'Den Robertson, Gabriel Giraldo, Mrs. Boland (Team Sponsor) & Serg Culver (kneeling).

Left: Cadets Giraldo and Culver experiment with their robot's payload retrieval.

Left: This year's robot, Spartacus, was designed and built by the cadets of the Camden Military Academy Robotics Team.

The theme for last year's robotic season was Agriculture. This year's theme is Aiding the Elderly. Below: Two of the trophies from last year's competitions. Last year at the regional competition, the team won First Place in Research, First Place in Teamwork and The Judge's Award. This year the team aspires to do even better.
