

CPT Saurya Neupane answering a teacher's call as Officer of the Day.

ACADEMICS 34

"My experience at CMA has changed me from a boy to a man. This school has shown me discipline, character, and trustworthiness. During my three years, 7th-9th, I have been faced with decisions and adversity that I would have most likely never faced in public school. This school has shown me leadership opportunities to help people and meet different people whom I would have never met. This place has shown me character with sports, how people look up to you, and how you present yourself to others. I have played basketball, football, track and soccer. In academics I was awarded with the highest GPA of 7th Grade, and my mother was so happy with my accomplishment that I achieved at this school. My instructors over the years and my coaches have helped and guided me to the road of success." - Treyvon Darby of Hampton, Virginia
