

# Fall Sports Banquet

"During the fall sports season at Camden Military Academy, athletes showed an enormous amount of dedication and perseverance. Our athletes consistently maintained a great work ethic at practice and gave one hundred percent effort at every contest. The athletes developed meaningful relationships with their fellow cadets. Several varsity football players also participated in cross-country on their days off, sometimes the day after a football game. The cross-country team carried the torch for CMA athletics during the fall sports season with another great season. I commend all of our young men for their hard work and dedication. "
