

FINE ARTS

My original role in the Harry's Hotter at Twilight was the hot, shirtless guy. However, due to football practice I couldn't make the rehearsals. I later became the person who was in charge of running the fog machine. Bowen, a Cadet SGT. in Delta Company, was the main hot, shirtless guy. He was one of the 6 main characters along with Stephano Beati. Beati played one of the wizards and he was quite a comedian. Tussle, another Cadet, played the rabbit delivery guy.

Some of the Cadets from CMA came to watch the performance and they really enjoyed it. While engaging in a county play it was very beneficial and I met a lot of great people there. A lot of the other actors and actresses went to Camden High School, but some were homeschooled. LTC Yarborough and Mrs. Thaxton were the ones that arranged everything. LTC Yarborough was our motivator and transportation. Mrs. Thaxton, of course, took us to buy our outfits.

In all, the play taught me a lot of things and it showed me how preparation and practice are the keys to make the best possible performance come to life. I think that everyone should have the opportunity to participate in Kershaw County's Fine Arts Center.
- Micheal Moses, of Franklin, Tennessee.
