

Everyone had a blast at this year's first ski trip. The trip to Winter Place went quickly and the cadets were on the slopes in time to enjoy some night time skiing and snowboarding. The slopes were pretty icy that first night, but the cadets made the best of it. Saturday provided some much needed snowfall and the cadets were able to enjoy fresh powder on the slopes. A full day of skiing and snowboarding on Saturday left our cadets exhausted and all slept well and sound that night. Many of our cadets are already talking about our next ski trip and how they plan to attempt even more challenging slopes.
