

Sports FALL Banquet

The fall sports banquet was a good ending to our cross country season. It was cool to get together with the football team and do it all together, since football and cross country were the two fall sports. It was nice to get recognized at the end of the banquet with our certificates. I also really liked the special awards given by Coach Heflin.

Going off campus for a "nice" dinner was good, compared to some of the dinners we had after meets at the quick fast food places before going back to school. I really liked how they put together a slideshow of a bunch of pictures from the season and were able to show that at the end of the banquet. That really made the whole outing for me.

Max Furmanchik, Mt. Pleasant SC

The fall sports banquet was a lot of fun, and a great opportunity. Being around all the other players from the other fall sports and the JH sports is what I really liked. I also enjoyed seeing everyone get their awards, and was very proud that all their hard work paid off. The workers there were super nice, and it was great to have our parents be there to support us. I loved hearing the coaches brag about how great we did this season. Would I do it again? Heck yes I would, I thought it was really fun and I can't wait for the winter sports banquet. Matt Weaver of Hesperus, Colorado

The sports banquet this fall was a good experience. When we showed up and saw all the parents it was fun seeing that most of the new boys were still homesick from being away. Having all three sports allowed everyone to see how the other sports went throughout the season. Being able to see the other players get their awards and watching the slide shows was cool. I liked being able to see what other players were recognized for along with being called up for the cross country awards.

Justin King, Matthews NC
