

# Drama & Fine Arts

The purpose of a high school drama or theater arts program is to introduce students to as many aspects of drama as possible, to allow them to experience for themselves the diversity and excitement of theater, and to encourage them to develop the passion which is necessary for the successful production of a play at any level. The Drama/Theater Arts Program teaches the following essential categories: choral reading, stage fighting, solo/duo acting, monologues work, and directing plays/shows.

The Christmas Play was a combination of all of the above categories. It was written by our Quartermaster, First Sergeant David Green, with a twist placed on it by the Drama Class of 2015-2016. They had to dance, sing, use imagination, improvisation, actual performance before an audience, and voice character analysis. They all got a chance to act in movement and motivation and keep in mind some of these students do not play a sport and may even be shy! The Night Before Christmas Play and Program also included a fantastic family choir by Mr. Caldwell and his church-goers, as well as fun and spiritual Christmas songs by the Camden Military Academy Concert Band. The school attitude is so great that we brought back our Charlie Company Tactical Officer, First Sergeant Collins, to dance for our students!

Twas the night before Christmas at CMA.
