

# School

MA cadets have the opportunity to go on many off-campus trips during the school year. The purpose of some trips is primarily cultural, such as attending plays or going to the nation's capital. Other trips are primarily recreational, such as skiing or white-water rafting. All trips are educational, however, because they provide new experiences and allow cadets to interact with different people in various places.

**Fun Time!** Cadets pose for a silly photo while they're were at the Washington Monument.

**WE** really Lived
