

Class of 2022

personal moments

"My most memorable experience here at CMA happened in the first week I was here. The headmaster and his wife, the 7th grade math teacher, decided to take her class and a handful of other cadets to go have dinner and then see a movie. I thought that was pretty amazing and generous, as at my previous school we rarely saw the headmaster. It was an enjoyable experience, and I felt like it was a great way to start off my year here at Camden Military Academy."

Jacob Cresswell
(Columbia, South Carolina)

"My most memorable day at CMA was the first day of school. The first day was most memorable because of Mrs. Boland and Mrs. Thaxton being so nice. They confronted me like they were my mom away from home. Still to this day if I don't understand something about class they tell me to come by during tutorial and they will help."
