gaining momentum

"Wrestling is unlike any other sport offered in high school. It is down-right violent and truthfully, hurts. However, it is a great experience and my most memorable experience is actually a product of my last match. I had worked hard to drop a weight class and had actually done it, which made me a starter, and I was excited to get a chance to wrestle. I knew that the guy I was going to be wrestling was good but I remember stepping on to that mat with confidence knowing that the guys sitting behind me were my brothers and were rooting for me."
