

CADET LIFE

As the afternoon bell strikes 3:15, Cadets eagerly jump out of their seat knowing "Free Time" has begun. After classes and before dinner is the time Cadets can spend the time on their own. Whether this is relaxing in their rooms, working out in the weight room, shooting hoops on the courts, or even grabbing a bite to eat in the Carlisle House. This is the time of the day where cadets can feel at ease and have personal time aside from the strict military schedule here at Camden Military Academy.
