

Civil Air Patrol

"This has been a strong year for Squadron 805! We have developed a strong Chain of Command for the 2018 school year. All fifteen of our cadets have earned Ground Team ratings in Search and Rescue. Each cadet has also completed the Model Rocketry Program, a three phase rocket building program that incorporates engineering, mathematics, and aerospace. Three of our members earned Ranger 3rd Class patches in Search and Rescue. Our cadets have also become proficient in basic radio communications. Our cadets have logged over 25 hours of flight time in a Cessna-172 aircraft with a glass cockpit. We look forward to our cadets coming back in the Fall to continue our success!" (1LT Nicholas Paramore, CMA Squadron Advisor)

Cadet Staff:
 Flight Commander: Cadet 1st Lt. William Larsen
 First Sergeant: Cadet Chief Master Sergeant Rodrigo Villalobos
 Flight Sergeant: Cadet Senior Master Sergeant Nicholas Wilson

Features Above:
