"Our team goals this year were to have a winning record, be competitive, and learn the game of baseball. Our record may not show how competitively we played, but as always, both Varsity and JV team-members learned a lot about baseball and about themselves as baseball players. Watching these teams grow as the season went along proved to be a highlight. In lots of games, we dug ourselves into a hole, but these kids never quit and always battled back with a chance to win. Beating teams we'd never beaten proved another highlight for the JV team. Varsity team leaders were Senior Kruz Bednar; Junior Brett McEwen; and Sophomore Thomas Mills. Bednar led our pitching staff, McEwen was the team's leading hitter, and Mills played consistently outstanding defense. Outstanding JV players included Drake Dickmann, Niles Leach, Jake Jordan-Sullivan, Davis Long, and Kyler McCaskill. These guys were all leaders and played hard all the time."

"The 2018 baseball season was a great one, and it sadly went way too fast. Coach Beckham said all season long that it felt like a sprint, not a marathon. We had good times and played hard. I will miss this group of guys when they leave, but I can't wait to play again next year and maybe have the same kind of brotherhood."
