

THE PALMETTO

Guess. All three of our class officers are popular on the campus and hold numerous other offices of importance. All presidents of the Beach Literary Society for this year have come from our class, as well as many other officers in all the societies. We have among our number the student who has been here longer than any other, Nathan J. Johnson. The President of the Y. M. C. A., Thaddeus A. Inabinet, comes from our class. The three company commanders and almost all the other officers are members of the Junior Class. The block letter football men from our class are Wylie Poag, Bennie Rhodes, Jake Smith, and Ralph A. Durham. James Sanders was awarded a crescent, while Joe Cantey received a monogram. Other good players were Collier, Lawton Dantzler, and Peter Stokes. Collier and Dantzler were also block letter basketball players. In addition to all these, many good players were developed in class football. Our class ranged second in the class football championship. In baseball we will be well represented, having on the team at least two veterans, James Sanders and Claude McLeod. We are almost certain to have other representatives on the team, which has not been chosen as this publication goes to press.

Due largely to the presence of "Little Fatty" Durham, our class tips the scales at 8,000 pounds, a large part of which is gray matter, as is attested by our record. The members of this class are determined to maintain the excellent record which the class has made thus far, and will exert their best efforts to see that it always remains in the forefront in all things worth while.

RALPH A. DURHAM, Historian.
