

COACH E. W. BURNETTE

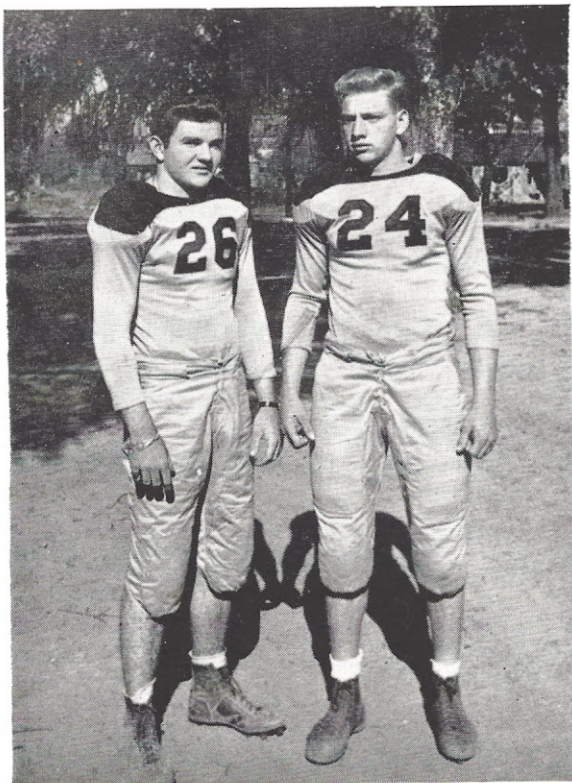

COACH DAN JOHNSON

FOOTBALL

The 1945 football squad started with the intentions of having a very successful season. Through hard practice the inexperienced learned the tricks of football. They were taught to run, block, and tackle, and in a period of three weeks after the first practice the team played its first game. Before the squad received its full strength the season was brought to an end. The team made a good record for itself even though it was green in experience. They didn't win all of their games but they had a fighting spirit.

The football team wishes to take this chance to thank the coaches for their valuable assistance and coaching without which we would not have won a single game.
