

## STAFF

The school paper staff this year was organized about two weeks after the beginning of school and since then has been very busy trying to keep the corps well informed on the happenings around school.

The paper staff at Carlisle as in other schools attempts to keep the cadets in the know. This year's staff has been a competent one, but due to the lack of certain facilities it was unable to do all the things which it had planned. We feel, however, that they have made the most of the resources which they had. We would like to take this chance to thank them for their year's work.
