The "Flight Club" was organized in 1944 and since that time approximately twenty men have soloed and received their student's license. This club was organized for the benefit of those cadets who wished to learn to fly and to operate an airplane.

All flying instruction is given by Mr. A. E. Cadle and Mr. V. E. Clarke. The flying is done from the Carlisle Air Field.

The members of this club who meet the standards set by the Bamberg Pilot Club have the chance to join that club.
