

Football

The '46 football team started the season ahead this year with most of the team coming back to school a few days early. The team had very few experienced men, as most of the boys were green, but with hard practice they caught on slowly. The first game caught up with us before the inexperienced had a chance to better themselves. The football squad this year, because of so many inexperienced boys, did not come out on top. Even though they did not, there was that undefeatable spirit through the whole season. At the close of the season the boys picked "Pete" Manos the most valuable player on the team. "Pete" well-deserved this honor.

The football team would like to thank Captain E. W. Burnette for his excellent coaching and his having faith in his team even though it had a tough season.
