

FOREWORD

On the pages that follow you will see, through formal and informal photos, the cadet as he works in academic and military pursuits, in athletic, and other activities.

Friendships that are formed and experiences that are enjoyed during one's school life will always be a source of pleasant recollection and reminiscence. Since these associations are realized among a group of boys from such varied geographical points, the CARLISLE REBEL should be a helpful medium in recalling them.

Years from now, after all has been decided, although one may not know the whereabouts of his classmates, the successes they have attained, nor the ambitions they have fulfilled, he will have this, the '50 REBEL, as a guide to lead him back in thought through the years to relive and recapture the life he knew as a cadet. Herein lies the real value of a year-book.
