

Battalion

Under the supervision of Captain Waddy Thompson, P. M. S. & T., and Captain William Scaffé, Band Director, the cadet corps has developed into a well-disciplined, self-relying organization.

With seldom interference, the battalion has one hour of drill each weekday, in addition to a rigorous inspection of barracks and personal appearance on Saturday morning. In the form of intricate drill exhibitions on Sunday, the cadets display skill and co-ordination before parents and friends. Twice weekly the cadets receive class instruction in extensive fundamental principles and counter-parts of Military Science.

The military training that the student body has acquired during the course of this year will undoubtedly be of future value.
